Bachelor of Arts in Computer Science

Expected May 2028

Relevant Courses: Algorithms and Data Structures, Object-Oriented Programming (C++/Java), Computer Architecture, Discrete Structures, Data Mining

Honors: Dean's List, Leadership Honor Society, Investment Club

PROJECTS

E-Commerce Platform | React, JavaScript

- Built a multi-page shopping interface with dynamic cart updates using advanced React state management patterns.
- Connected the frontend to a mock API to simulate real product data and ensure smooth, responsive user interactions across devices.

PROFESSIONAL EXPERIENCE

Queens Public Library

Queens, NY

Computer Literacy Instructor

March 2025 - Present

- Lead group classes and one-on-one sessions helping beginners become comfortable with computers, internet tools, and everyday technology through hands-on support.
- Created and managed the team's internal website to centralize files, documents, appointment systems, and backend resources, improving workflow and coordination.
- Track participant progress and feedback, producing reports on user comfort levels and challenges to adapt lesson plans and improve overall class outcomes.

Hudson Group

JFK Terminal 4, NY

Sales Associate

May 2024 - March 2025

- Assisted high-volume international travelers with purchases and product recommendations in a fast-paced airport retail environment.
- Handled POS systems, inventory organization, and customer service under time-sensitive conditions.

Code.us

Queens, NY

Computer Science and Math Tutor

October 2023 - December 2024

- Work closely with students to provide clear explanations of complex mathematical and computer science concepts and theories.
- Offer guidance and assistance with problem-solving techniques and strategies.

Haitian Americans United for Progress

Queens, NY

Administrative and Financial Assistant

Summer 2022

- Supported the financial management of the program by preparing and maintaining accurate financial documents, such as budget reports, invoices, and expense tracking
- Exhibited proficiency in financial software and tools to ensure the seamless organization and analysis of financial data
